This is S0530079, it was assigned to Beth but this may have been the one that Kate and Tom were going to review. Penny please pull and retire.

I don't know who had this assignment, but we need to give them the word not to continue processing it.

okay with me, I think you need to write a memo. You're to nice!

>>> Paul Baker 8/24/07 8:52 AM >>>

On July 31, we received a small mine notice from Kent Chamberlain with Chamberlain Stone. He was told by SITLA he needed to apply with us, but he will just be picking up small stone by hand and loading them in his pickup.

Is there a way he can get his permit fee back? He didn't ask the question, but I thought it would be fair for us to do it.
